

Ukraine as Member of the Energy Community

Dr Dirk Buschle
Deputy Director
Energy Community Secretariat

The Ukrainian Factor in Europe's Energy Security Strategy
Diplomatic Academy
11.3.2015

- the energy community: from diplomacy to the rule of (european) law
- what does it mean for ukraine's gas sector?
- can, and if yes: how can the export of european law be successful?
- the energy union: a fresh start?

the rule of european energy law in ukraine

- the old days: diplomatic links with ukraine
- the association agreement: a breakthrough?
- association agreement and energy community
- energy community essentials
- lessons learned after ten years, i.p.
better enforcement and conditionality

how the energy community affects the gas sector in ukraine

- establishing a good legal framework
- restructuring naftogaz and increasing transparency
- de-monopolization and price increases
- the agreements with gazprom
- diversification and reverse flows

ukraine and energy community: lessons learned for law export

- the concept of law export
- bilateral vs multilateral
- supranationality and institutions
- integrating in the internal market
- satisfying our partners' interests

- conclusions: metternich vs monnet
- energy union: old vine in a new bottle or a fresh start?
- the role of third countries – solidarity as a participation right
- the strife for supply security: the european union's new narrative

thank you
